

## Gucci

**Meet Gucci** – she is a 6 year old Min Pin who was hit by a car and surrendered to Sierra’s Haven by her owner. She has extreme difficulty with her hips and left back leg. She is so lucky that a lovely woman adopted her and has given her a wonderful new “fur’ever” home. We received the email below from her new “mom” and a few pictures to share. We are so grateful for the people who will choose a special needs pet over a puppy! She told me in her email, “Instead of going to a breeder or pet store, I decided that us old folk need love too and chose to adopt!”

May 13, 2014

“Ms. Gucci is loving her new home. My new Mom makes me go up and down the steps, it hurts my hips, but I'm walking so much better! I even went up the steps all by myself and I got a treat for that. I love snuggling with Mom every night in her big bed. Maybe one of these days I will be strong enough to jump up there by myself. Mom says she's gonna open the pool and do therapy with me. I love my new home. Thank you Sierra's Haven for letting me go home with her!”

**Thank you again for giving this precious girl a new loving home and adopting from Sierra’s Haven!**
